INDEPENDENT AUDITOR'S REPORT

Board of Trustees and Executive Director Texas Emergency Services Retirement System

We have audited the accompanying schedule of participating department allocations of Texas Emergency Services Retirement System (the System) as of and for the year ended August 31, 2017, and the related notes. We have also audited the columns titled net pension liability, total deferred outflows of resources excluding participating department specific amounts, total deferred inflows of resources excluding participating department specific amounts, and total plan pension expense (specified column totals) included in the accompanying schedule of collective pension amounts of the System as of and for the year ended August 31, 2017, and the related notes.

Management's Responsibility for the Schedules

Management is responsible for the preparation and fair presentation of these schedules in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of these schedules that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on the schedule of participating department allocations and the specified column totals included in the accompanying schedule of collective pension amounts based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the schedule of participating department allocations and specified columns included in the accompanying schedule of collective pension amounts are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the schedule of participating department allocations and specified column totals included in the accompanying schedule of collective pension amounts. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the schedule of participating department allocations and the specified column totals included in the accompanying schedule of collective pension amounts, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the schedule of participating department allocations and the specified column totals included in the accompanying schedule of collective pension amounts in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion.

Board of Trustees and Executive Director Texas Emergency Services Retirement System

Page 2

An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the schedule of participating department allocations and the specified column totals included in the accompanying schedule of collective pension amounts.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinion

In our opinion, the schedules referred to above presents fairly, in all material respects, the schedule of participating department allocations and the columns titled net pension liability, total deferred outflows of resources excluding participating department specific amounts, total deferred inflows of resources excluding participating department specific amounts, and total pension expense included in the accompanying schedule of collective pension amounts of Texas Emergency Services Retirement System as of and for the year ended August 31, 2017, in accordance with accounting principles generally accepted in the United States of America.

Other Matter

We have audited, in accordance with auditing standards generally accepted in the United States of America, the financial statements of the System as of and for the year ended August 31, 2017, and our report thereon, dated December 15, 2017, expressed an unmodified opinion on those financial statements.

Restriction on Use

Our report is intended solely for the information and use of the System's management, board of trustees and executive director, participating departments and their auditors, and is not intended to be, and should not be, used by anyone other than these specified parties.

^{*}Participating department specific amounts that are excluded from this schedule are the changes in proportion and differences between participating department contributions and proportionate share of contributions as defined in paragraphs .54 and .55 of GASB Statement No. 68, Accounting and Financial Reporting for Pensions.

TEXAS EMERGENCY SERVICES RETIREMENT SYSTEM NOTES TO SCHEDULE OF PARTICIPATING DEPARTMENT ALLOCATIONS AND SCHEDULE OF COLLECTIVE PENSION AMOUNTS

NOTE 1. BACKGROUND AND REPORTING ENTITY

The Texas Emergency Services Retirement System (TESRS) is an agency of the State of Texas and its financial records comply with state statutes and regulations. The ninemember Board of Trustees, appointed by the Governor, establishes policy for the administration of the Texas Emergency Services Retirement System.

The TESRS was created as a standalone agency by the 83rd Legislature via the passage of SB 220, effective September 1, 2013, to assume the functions of the abolished Office of the Fire Fighters' Pension Commissioner. While the agency is new, the System has been in existence since 1977. TESRS, which is under the authority of Title 8, Subtitle H, Chapters 861-865 of the Texas Government Code, provides death and disability benefits to active volunteer fire fighters and first responders, and a pension to members with vested service, as well as to their survivor/beneficiaries. For financial reporting purposes, the State of Texas is considered the primary reporting government. TESRS' financial statements are included in the State's Comprehensive Annual Financial Report. TESRS issues a publicly available Annual Financial Report, which includes financial statements, notes, and required supplementary information, which can be obtained at www.tesrs.org. The separately issued actuarial valuations which may be of interest are also available at the same link.

Information that is available in the annual financial report is not repeated in the allocation schedules and related notes.

The preparation of the schedules of participating department allocations and collective pension amounts in conformity with accounting principles generally accepted in the United States of America requires management to make significant estimates and assumptions that affect the reported amounts during the reporting period. Actual results could differ from those estimates.

NOTE 2. SCHEDULE OF PARTICIPATING DEPARTMENT ALLOCATIONS

The contribution requirement per active emergency services personnel member per month is not actuarially determined. Rather, the minimum contribution provisions are set by board rule, and there is no maximum contribution rate.

Participating department contributions for the fiscal year ended August 31, 2017 were used for purposes of preparing the allocation schedule. Adjustments were made in the following circumstances, with the treatment detailed below:

- For newly participating departments, lump sum contributions were eliminated and contributions were annualized
- MTES contributions for legacy departments were eliminated
- Interest on contributions was eliminated
- 13th checks, which are passed directly through to the participants, were eliminated

TEXAS EMERGENCY SERVICES RETIREMENT SYSTEM NOTES TO SCHEDULE OF PARTICIPATING DEPARTMENT ALLOCATIONS AND SCHEDULE OF COLLECTIVE PENSION AMOUNTS

NOTE 3. SCHEDULE OF COLLECTIVE PENSION AMOUNTS

TESRS has prepared the Schedule of Collective Pension Amounts. The collective pension expense based on TESRS's fiscal year ended August 31, 2017 is shown in the following table:

Service cost	\$ 1,593,479
Interest	9,468,133
Projected earnings on	
pension plan investments	(7,339,257)
Amortization of differences between	
projected and actual earnings on	
plan investments	840,122
Amortization of changes of assumptions	269,698
Amortization of differences between	
expected and actual experience	19,590
Pension plan administrative expense	184,314
Changes in benefit provisions	
	\$ 5,036,079

Amounts reported as deferred outflows of resources related to pensions will be recognized in pension expense in future years as follows:

Fiscal Year Ended August 31,	Net Deferred Outflows of Resources
2018	\$ 1,129,410
2019	2,071,764
2020	(99,438)
2021	(487,427)

Each participating department will need to calculate two additional types of deferred outflows of resources and deferred inflows of resources, which are participating department specific amounts. These amounts relate to differences between actual contributions made by a participating department and their proportionate share of total contributions calculated based on the allocation percentage.

The participating department's proportionate share of the collective pension expense for its fiscal year ended between September 1, 2017 and August 31, 2018 is equal to the collective pension expense multiplied by the participating department's allocation percentage for TESRS's fiscal year ended August 31, 2017 as shown in the schedule of participating department allocations.
